KANSAS PIPELINE OPERATORS

Natural Gas Gathering
Liquid Gas Transmission
Natural Gas Transmission
Hazardous Liquid Transmission
Natural Gas Distribution
Crude Oil

Our purpose:

To promote damage prevention, educate, and plan proper response techniques with emergency official agencies across the state.

Our goal:

To be free of injury and third party damages accomplished through safe pipeline operations, outreach, and educational programs to stakeholders with neighboring pipelines in Kansas.

www.kpa-awareness.com

Our members work together to keep Kansas informed and aware of the pipelines running throughout the state. Here are just some of the benefits of membership:

- Consistent and effective pipeline safety training programs to hundreds of first responder agencies every year in Kansas - in person and online!
- FREE usage of Crisis City, a 156 acre training facility for first responders, located in Salina, KS
- Affiliation with Kansas Fusion Center, the Kansas Corporation Commission and other government agencies
- Collaborative marketing and outreach programs making it more affordable for all members
- Inclusion in KPA website and Twitter account for pipeline safety meetings
- Use of online program documentation system that assists members during state and federal audits
- Only $400 for Municipalities to join!

Membership in the KPA is easy and any KPA member is eager to share the benefits of joining! Contact us at 866-577-1162.

Becoming a member is easy!

- Contact one of KPA's officers noted below.
- Check out our member website & meeting schedule at www.kpa-awareness.com.
- Complete a program selection form (PSF).
- Begin the process of building an operator page (if applicable).
- Attend the program that is in your area.
- Participate in KPA's quarterly membership meetings.

"Joining the KPA is one of the best things we have done. Not only has it enhanced our contacts within the communities we serve, but it has also opened a lot of doors for us in regards to training and resources available to help us execute our plans"

About Us

The Kansas Pipeline Association (KPA) is comprised of more than 46 pipeline companies that have come together in a collaborative effort to promote pipeline safety and emphasize damage prevention throughout the state of Kansas.

Organized in 2005, the KPA includes liquid and gas pipeline operators, storage field operators and municipalities....and we need you!
